EMPLOYER FLEXIBLE ACQUIRES CHANNEL DYNAMIX

The fast-growing business solutions provider adds managed IT solutions, data analytics and reporting tools.

HOUSTON — (May 3, 2013) — Today, [Employer Flexible](#), the Houston-based comprehensive HR, recruitment and IT solutions provider, announced that it has acquired integrated technology solutions company [Channel Dynamix](#) (CDX).

The acquisition expands Employer Flexible’s portfolio of service offerings by adding in-depth, proven tools that maximize business data: business analysis tools, interactive websites, and managed IT services. Known in the solutions provider industry for bringing new and emerging implementation ideas and business models to the market, CDX will begin operating as EmpactIT, an Employer Flexible company.

“We’re excited to be adding another solution to our existing arsenal, making us a stronger business solutions company in the Texas market,” said Employer Flexible Co-Founding Partner Chris Dollins. “A couple of years ago, we were ranked #76 in the *Inc.* 500 Fastest Growing Companies in Texas list. Strategic moves like this one will help us continue to grow so we can offer even more ways for companies to become more efficient and **Impact what matters.**”

“This acquisition is a huge win for our clients. We are adding an in-depth portfolio of data analytics and managed IT services,” said Dollins. “In order to stay competitive and strong in this marketplace, Employer Flexible must be nimble and smart, and this acquisition underscores our dedication to being an industry leader and providing best-class offerings.”

A large motivator in the decision to acquire CDX was the experience Employer Flexible had as a CDX customer. “Once we used their services, we recognized that they were an industry leader with an unmatched offering,” said Dollins. “ We knew our clients would be equally impressed.”

The top-rated, 13 year IT company will immediately begin operations across existing Texas markets as EmpactIT in order to add even more flexibility and effectiveness to Employer Flexible’s efforts to provide businesses greater business intelligence, workforce alignment and executive assurance.
